DETAILED ACTION

Status of Claims

1. Applicant's reply filed on 5/7/2007 is acknowledged. Current pending claims are 1, 3-5, and 8-21. Claims 1, 3, and 10-12 are amended. Claims 13-21 are new. Claims 2 and 6-7 are cancelled.

Allowable Subject Matter

2. Claims 1, 3-5, and 8-21 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. In regards to claim 1, it would not have been obvious to one of ordinary skill in the art at the time of the invention to modify the hydraulic distributor of Smock et al. (US Patent No. 5791168) with a distribution nozzle which transmits water coming to the mains when the draining pipe when the draining pipe is sealed-off by the first wall of the valve body of the distributor.

5. In regards to claim 13, it would not have been obvious to one of ordinary skill in the art at the time of the invention to modify the valve body of the hydraulic distributor of Smock et al. (US Patent No. 5791168) such that it has a bushing attached to a first wall by means of ribs and having a second wall which is not a sealing wall since this would have destroyed the rotary valve body of Fig. 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
